Elevating Spaces with German Precision  
PVC & WPC Sheets

## A legacy of the Century

Koemmerling, the brand of profine GmbH, with a rich legacy of 127 years, is a global player and a leading manufacturer of uPVC profiles for windows and doors and a renowned provider of shutter systems and PVC sheets. Koemmerling is known for its technically advanced systems, which remain the epitome of excellence by keeping the quality at highest level. Made with German precision, Koemmerling products has been the flagbearer for upscaling the quality standards and introducing new dimensions to the Indian fenestration industry.

profine India, the 100% owned subsidiary of profine GmbH, with its global headquarters at Pirmasens, Germany and presence in over 100 countries, has been manufacturing and supplying the wide range of Koemmerling systems across India and abroad. To make the supply chain easy and effective, profine India has established a modern state-of-the-art facility, equipped with the most advanced machinery and tools at Vadodara, Gujarat. Our attention to quality, innovative designs, efficient processes, and awareness towards sustainability, makes our brand stand out from others in the competition.

## Sheets are our Craft, Sustainability our Mission

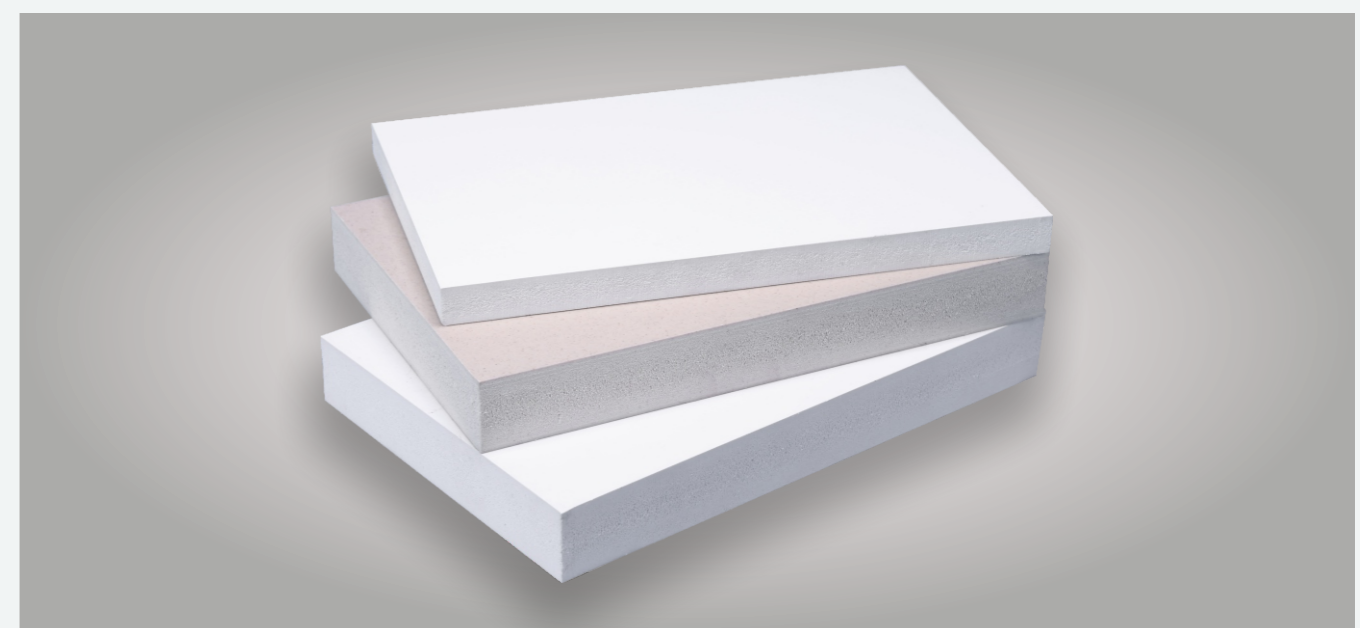

In today's era, sustainability has become a necessity for all. Every country is adopting solutions that create a safe ecosystem for the people and promise sustainability at any cost.

For us at Kömmerling, sustainability is not just an empty word, but a lived reality. We demonstrate this commitment every day; through our product portfolio, our technologies, and our working environment. We think and act holistically. To put it another way: we consider the ecological, social, and economic aspects of everything we do.

With this commitment, Kömmerling offers KömaBoard to the Indian panel product market - a highly sustainable and superior alternative to traditional panel materials.

There are no toxic or harmful substances in KömaBoard that can be given off over the long term. KömaBoard sheets are free from formaldehyde, asbestos, lindane, PCB, PCP and CFCs. What's more, they are cadmium and lead-free and are also made without any monomers, biocides or plasticisers.

This is why KömaBoard poses absolutely no hazard to people or the environment, neither during their manufacture, while in use, nor during the recycling process.

# Redefining Modern Architecture and Interior Spaces

KömaBoard from Koemmerling is a premium range of highly durable polymer composite sheets, engineered to redefine modern architecture and interior spaces. Crafted with German precision, KömaBoard embodies the highest standard of quality, durability, and sustainability.

From premium furniture and modular interiors to architectural innovation, KömaBoard is set to reshape the way we build and design. Perfect for residential, commercial, and institutional spaces, this advanced range of sheets ensure exceptional quality with a promise of longevity and performance. KömaBoard sheets are light weight, tough, abrasion resistant, anti-fungal, anti-bacterial, and can be moulded into any shape, size and thickness.

## One Board, Many Applications

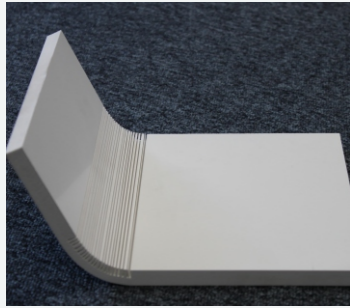

KömaBoard sheets are the ideal choice for residential, commercial, and institutional applications, offering a superior alternative to traditional panel materials.

KömaBoard sheets can be customized with printing and texture. Various intricate designs can be explored through CNC cutting and carving. These sheets are carpenter friendly as its cutting, drilling, screwing, and finishing is possible with the standard carpentry tools.

- Kitchens & Cabinets
- Modular & Custom Furniture
- Wetroom Vanities
- Partitions
- Cladding
- Wall Paneling
- Ducting & Covers
- Door & Window Elements
- Opaque Panel Infills
- Exhibition & Showroom Stands

# Advanced Processing Capabilities

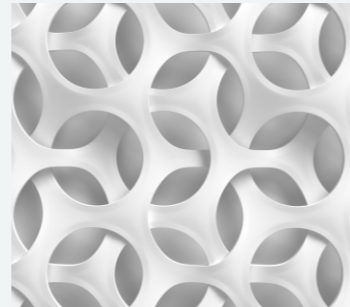

## Thermoforming

KömaBoard's excellent thermoforming properties allow it to be easily shaped into various designs, making it ideal for creative and customized applications in furniture, interiors, and architectural elements without compromising its strength and durability.

## CNC Cutting & Carving

Various intricate designs can be explored through CNC cutting and carving with high accuracy and smooth finishes. KömaBoard's stable composition ensures clean edges and detailed patterns, making it ideal for decorative panels, and branding elements.

## Printing & Painting

High quality printing and painting is possible due to its smooth and non-porous surface. This feature makes it perfect for signage, branding, decorative panels, and creative interior applications without requiring additional surface treatment.

# A Carpenter Friendly Material

## Works with Standard Tools

KömaBoard is easy to work with, as it supports standard carpentry tools for cutting, drilling, screwing, and shaping. Its versatility ensures a hassle-free installation, just like traditional wood.

## Higher Screw Holding Strength

KömaBoard's high-density composition ensures excellent screw holding strength, making it a reliable choice for secure fittings. This enhances durability and ease of installation.

## Calibrated

KömaBoard's calibrated thickness ensures consistency across all sheets, making machining, cutting, and installation highly efficient. This precision enhances workability, allowing carpenters to achieve seamless joints and smooth finishes with ease.

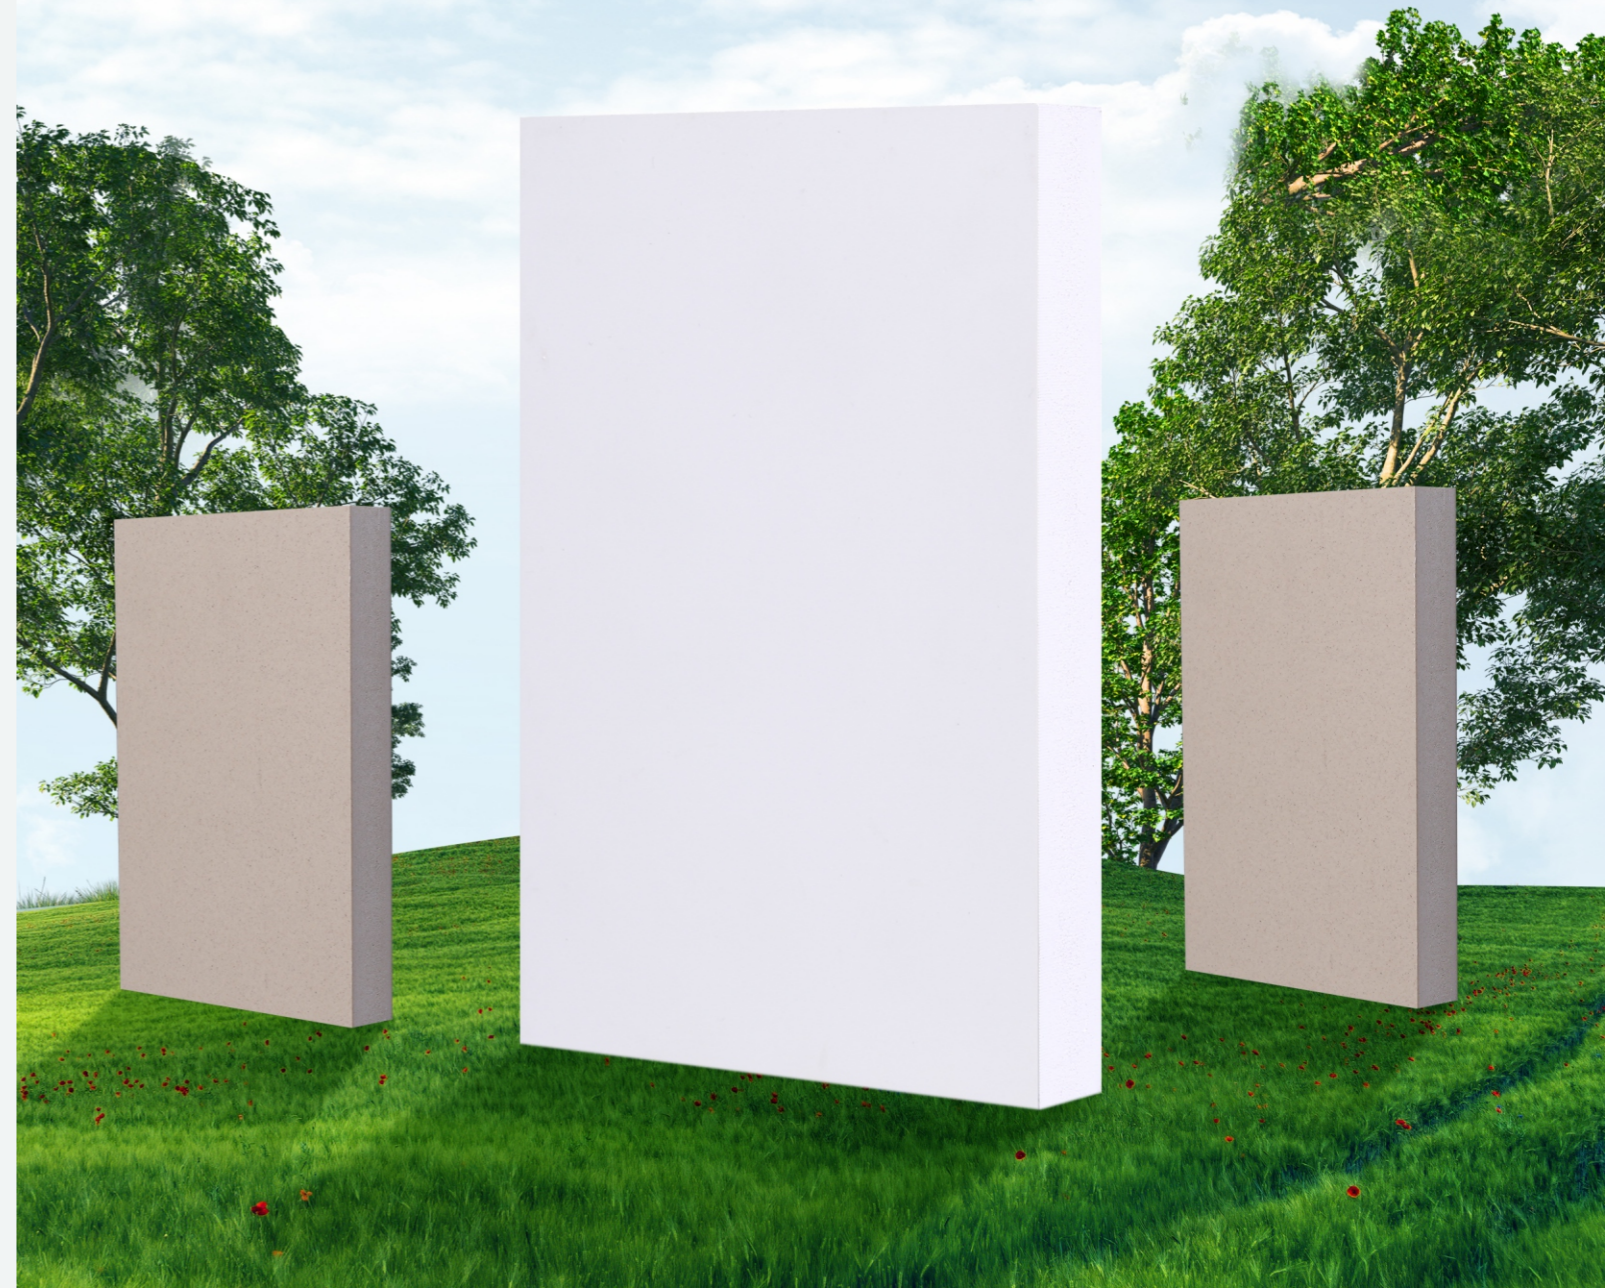

# A Smarter Choice for a Greener Tomorrow

KömaBoard from Koemmerling is more than just a high-performance solution. **It is a sustainable alternative to traditional wood materials for interior and exterior applications.** The KömaBoard sheets are lead-free and recyclable, promoting sustainable building solutions. These sheets eliminates the dependency on natural wood resources resulting in a greener future. Moreover, their properties like moisture resistance, termite-proof, and durability ensure long lasting performance, minimizing material wastage due to frequent replacements.

KömaBoard from Koemmerling reinforces the company's commitment to sustainability and green building solutions, providing architects, designers, and homeowners with an eco-conscious choice that balances performance with environmental responsibility.

Choose KömaBoard and be a part of the future of sustainable building solutions.
