options. They offer exceptional flexibility in terms of height and width, perfectly complementing modern architectural styles. Notably, the engineering behind these systems ensures outstanding performance in all weather conditions, including summer, winter, rainy seasons, and high-wind environments. These modern window and door systems remain durable and resilient with minimal care and maintenance. As a result, their popularity is rapidly increasing, and they are becoming the preferred choice for many.

## What features or technologies do you invest in to have an edge over others?

As previously mentioned, Koemmerling is a globally renowned brand with an illustrious history of 125 years. We pride ourselves on our commitment to sustainability, uncompromising quality, innovation, customer-oriented production and services, efficient processes, and technologically advanced systems. Our uPVC windows and doors are crafted from sustainable materials of the highest quality, ensuring their durability even in harsh weather conditions. Moreover, our diverse range of styles and designs allows customers to find the perfect match for their preferences, enhancing their building's architectural aesthetics. With these unique qualities, Koemmerling has revolutionised the world of home design and construction.

## How has the fenestration industry in India evolved over the past two decades?

uPVC window and door systems were introduced in India in the early 2000s,

PROFINE.

marking nearly two decades in the market. During this period, the fenestration industry has witnessed a notable shift towards modern windows and doors crafted from eco-friendly and durable materials. uPVC possesses the sought-after attributes customers desire in their windows and doors, such as style, smooth operation, durability, and low maintenance. These innovative systems have gained popularity due to additional advantages like thermal insulation, zero water penetration, sound insulation, maximum opening capacity, multi-locking mechanisms, and dustproof features. 🌟
